Mr. Trent Johnson

Dear Trent:

I cannot begin to tell you how pleased we are with your air hose. We have been replacing our air stones and think it is a fine product. We have been able to increase our feed rates and densities, resulting in increased growth rates and production. In fact, I have sent sample hose to a number of my customers. They are experiencing the same results and you should be hearing from them soon.

We plan on replacing more stones in the future and will be keeping in touch. I wish I would have known about this product before spending so much money on airstones. The amount I have saved on airstone maintenance and cleaning is also noteworthy.

Hope all is well and thanks for enlightening me about your fine product. I will be in touch soon.

Steve Abernathy
